

DESCRIPTION

Wire Armor Spray is specially formulated for lubrication of polymer jacketed wireline cables as well as conventional wireline. Its biodegradable base also functions as rust inhibitor providing excellent polymer lubrication and protection against rust in harsh environments. The spray's low surface tension ensures deep penetration of conventional cable, safeguarding both the surface and inner core of conventional wire. It protects wireline equipment from surface rust during storage. Additionally, Wire Armor Spray reduces wear from continuous use and is compatible with spray systems on most wireline service units. service units.

APPLICATIONS

Wire Armor Spray is recommended for use in:

- Polymer Jacketed Cable, braided wireline, cables, and wire rope
- Designed for use with spray equipment mounted on many wireline units

Wire Armor Spray is generally applied to the wireline when spooling

ADVANTAGES & BENEFITS

- **Advanced Wear Protection:** Wire Armor Spray provides protection between trips and during periods of storage. This product provides lubrication to elastomer seals and reduces wear caused by continuous use.

HEALTH & SAFETY

This product is not anticipated to pose any adverse health risks when used as intended.

For additional details, refer to separate Safety Data Sheets, available upon request.

TECHNICAL DATA/TECHNICAL PROPERTIES

	WASPt	WASP36	WASP007
Color	Amber	Amber	Amber
Consistency	Tacky	Slightly Tacky	Slightly Tacky
Viscosity @ 25 °C, cSt	42	36	7
Contains inhibitors for H ₂ S & CO ₂	✓	✓	✓
Contains extreme pressure lubricant additives	✓	✓	✓
Protects against saltwater	✓	✓	✓
Clean up solvent – water	✓	✓	✓
Biodegradable & Renewable	✓	✓	✓
Non-flammable	✓	✓	✓
Non-toxic	✓	✓	✓

*All properties are typical and may vary.

Always adhere to the manufacturer's guidelines for the correct equipment fluid. Lubchem Specialties is not liable for any misuse of the product or improper application.
